

# Chunji Wang

youremail@www.com, github.com/yourgithub

Your City, Your State  
(123) 456-7890

## EDUCATION

---

- **University of Southern California** *Ph.D. in Neuroscience* Los Angeles, CA, 2011/8 – 2017/8
- **Tsinghua University** *B.S. in Physics* Beijing, China, 2007/7 – 2011/7

## SKILLS

---

- **Theories:** Machine Learning, Natural Language Processing (NLP), Deep Learning, Statistics
- **Languages:** Python, R, C, Scala, Matlab, SQL, Java, Mathematica
- **Technologies:** Git, MySQL, Spark, AWS-EMR, Linux, Shiny, Kinect

## WORK EXPERIENCE

---

- **Samsung Semiconductor, Inc.** *Sr. Imaging Software Engineer* Pasadena, CA, 2018/9 – present
  - **Camera systems:** Prototyping camera systems including experimental 3D cameras, color cameras and LiDAR.
  - **Imaging software:** Developing image capturing/processing software and algorithms, and firmware for experimental embedded cameras.
  - **Deep Learning software:** Developing Deep Learning algorithms and software for object recognition, image/video understanding, speech understanding and others.
- **Rule14** *Data Scientist* Santa Monica, CA, 2017/10 – 2018/9
  - **Utility load forecast:** Built utility load forecast models for millions of customers; integrated it with relational databases; automated back-end model training and testing.
  - **Customer churn prediction:** Built Gradient Boosted Trees to predict churn probabilities of millions of customers via xgboost. Achieved a lift of 5.
- **Innovation Solutions** *Data Scientist Intern* Santa Ana, CA, 2015/5 – 2015/6 and 2016/1 – 2016/5
  - **Live data analysis:** Implemented applications to capture Kinect 3D skeleton data and calculate human anatomical joint angles in real time (Matlab & C#).
  - **Report and visualization:** Designed and implemented a web application to report full kinematics performance history to users and physical therapists (R, Shiny & SQL) with intuitive graphics.
